To think only of the best, to work only for the best and expect only the best. To be just as enthusiastic about the success of others as you are about your own.
To forget the mistakes of the past and press on to the greater achievements of the future. To wear a cheerful countenance at all times and give every living creature you meet a smile. To give so much time to the improvement of yourself that you have no time to criticize others. The Bizarre Tragedy in Guyana

Cindy,

You can't
know how much
I think you for
all that you've done for
me. No words can express
what I feel between us. You
have a part of my life which no one
else will ever have. I know it was
hard for you to be the go between and I
never wanted to hurt you with it. But my
stubbornness wouldn't let me give in. I wanted
to think that couldn't be - much of my life happens that
way. I wish I could say that I would be forever, but that
is not in the beyond. I think perhaps one of the greatest mysteries of
the year was our friendship but I can't tell him. Only you and he seem to know me to be me,
and I hope, because I am tired of worrying about hurting you, because I'm very appreciative of
all my life's joys. My friend, this poem for you, is my love and always.

All my love
Lori

TIMES, THINGS, & THOUGHTS

Will you remember the times we have had,
The times we were happy, the times we were sad,
The times together, the times apart,
Will all of these times, find a place in your heart?

Will you remember the things that we've done,
The things we have lost, and, the things we have won,
The things we would watch, the things we'd perform,
Will all of these things, help keep our hearts warm?

Will you remember the thoughts we have had,
The thoughts of the good, the thoughts of the bad,
What we've thought together, what we've thought apart,
Will any of these thoughts, find a place in your heart?

Kevin Griffin 79

Cindy, you have been a great friend this year and I am
so totally glad I got to meet you. Wish I'd been more
warm and outgoing in time. Cindy, you will go in life
because you have a wonderful way with people. I know you will!
Thanks for all the good times we shared.
Love ya. "I love you just the way you are!"
Take care, and best of luck (with ...)

Love, Patrick

JUNIORS!

In store for you in your Junior year we have numerous ghastly tortures designed specifically for the demoralization of the 16 year old: The Chinese water torture of College English Review, each drip a sesquipedalian masterpiece like consanguinity, antediluvian, bacchanalian, iconoclastic or imbroglio (a type of Italian sausage). Not to forget bolster, holster, flux, crux, glut, glib, and guffaw.

Further agony abounds in the fingernail-pulling of Chemistry, or, worse yet, the thumbscrews of Honors Physics. Most undergo the forced-feeding of U.S. History and the rack of Mathematics — there are a variety to choose from, ranging from the annoying tickling of Algebra to being dragged across the stony plain by a horse called Analysis.

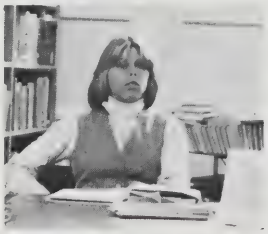
Added to these traditional terrors we have the keelhauling they call Drivers' Ed, the scourge of school lunches, and some experimental surgery in the form of PSATs.

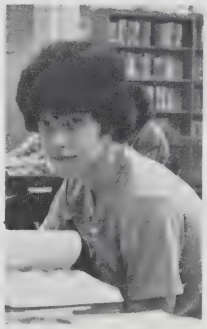
The only thing that saves the suffering student is his sophisticated powers of evasion. He arrives late at 11:00, leaves early at 12:00, and skips E Block. He can forge a pass with his eyes closed, and knows the woods like the back of his hand. He has the bell times memorized to the minute, and can discipline his travel so that he is always 19.6 seconds late, and can just squeeze in the door as the teacher tries to shut it. He also knows how to get through the year with less than minimum credits.

Taking all things into consideration, Junior year is probably your best year for dropping out.

Greg Dunn

Cindy,
It's been a pretty great year,
although we have had many problems (to say the least)
Cindy, you're a great kid, too bad you had to
be the in-between person! Stick with tennis,
and keep smiling.
Love,
Sarah





SOPHOMORES!

Your sophomore year never goes quite like you planned it. For one thing, your arena scheduling never comes out the way you wanted it, and you end up taking second-choice courses.

You expected at least some degree of sophistication when you migrated from across the street. You weren't prepared for the cascading maps and undecipherable tests of Western Civ. You may find yourself waist-deep in the manure of Geometry, one of the most depressive, oppressive, and unimpressive factors of the sophomore year. However, you work hard, sort of, and, by the end of the year, after 150 total hours of classwork, and almost 3 total hours of homework, most can distinguish a triangle from a square. Most.

You were probably determined not to make a fool of yourself, but you did anyway. You got lost, stepped on the backs of people's shoes in the hallway, and tried to open somebody else's locker under the impression that it was your own. You also probably realized, after brief meditation, that the upperclassmen are just as confused as you are.

Science of the Year: Biology, the rectum of all sciences, biologically speaking. You have probably suffered through your second and last year of a language, probably French or Spanish, both of which are about as exciting as going to the bakery to watch the buns rise.

Now that your sophomore year is over, you can exhale with audible relief and grit your teeth in preparation for the upcoming Junior year.

Greg Dunn

Cindy,
I'm writing
books and that means
goodbyes, but not that for us & not
even when you graduate! You're a
fantastic person & have a
way about you that people can't shut out
of their lives. Don't lose that Cindy, it's
a special gift that not everyone has.
Take Care

Chris

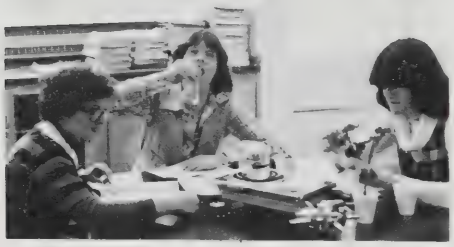
D.A.R.

The DAR Good Citizens award is offered to public high schools in every state by the National Society Daughters of the American Revolution. The plan provides for the selection of a girl or boy of outstanding character from the Senior Class of each Senior High School- this girl or boy is to be chosen by the members of her/his class and her/his faculty. This year the honor of receiving this award has been given to Missy Wright. The Senior Class would like to congratulate our friend and classmate.



I hope this batch is as good as the last one.

Don't walk in front of me
I may not follow
Don't walk behind me
I may not lead

Cindy,
Like we just started a
a new tradition, a winning
season. Keep it up next year
Speaking as your captain, right at
the moment, you have to fulfill
a certain duty as being a full time
No. 1 player next year and that is
you have to win. And
you better or
else. I'll
come back &
visit you.
Good luck
next year.
Love,
Maryann

Forever Young

May God bless and keep you always.
May your wishes all come true.
May you always do for others
And let others do for you.
May you build a ladder to the stars
And climb on every rung.
And may you stay forever young.

May you grow up to be righteous.
May you grow up to be true.
May you always know the truth
And see the light surrounding you.
May you always be courageous,
Stand upright and strong.
And may you stay forever young.

May your hands always be busy.
May your feet always be swift.
May you have a strong foundation
When the winds of changes shift.
May your heart be always joyful.
May your song always be sung.
And may you stay forever young.

Cindy,

I'm proud to be friends with such an athlete as you. You're excellent at everything you do. Volleyball and tennis are a great deal to you. Have a beautiful summer and see you next year.

Love
Laurie

Cindy,

What can I say? I have missed you so much this year! Its been so hard with out you to smile for me and make everything all better. Its hard to believe that only a year ago I was here laughing and sharing all of the things that I love with you and Janet and Jori and everybody. Its really strange to come back because the good things that I remember here are still happening but they don't need me anymore. I feel small and unimportant but happy and excited at the same time. Its really good to see everybody again but I still can't help feeling envious.

Cindy I still love you as much as I ever did and no matter what distance tries to seperate us, I'll still be here. Cindy you are so beautiful in more than one way. Please don't ever let us grow apart I just couldn't take it. Remember all of the good times we've shared, Mr. Emery's science class, concert choir, gym, volleyball (That was a laugh), Nancy, your Daddy and most of all me.

P.S. I love you.

toujours,
Marie

Cindy,
You a super nice person with a great personality and sense of humor. Best of luck in the future I hope everything turns out the way you want it to. You deserve the best in life. Keep in touch.
